Experience

Data Analysis internship with **Existo** (existo.pl) from 07.07.2025 to 31.12.2025

Experience with generating, as well as finding and cleaning datasets, and using them to create visualizations/reports according to superiors' specifications.

Student Projects

- ❖ **Cinema Suwałki** (thesis project) – professional cinema website with Stripe API and AWS RDS database integration.
- ❖ **WorkBlocks** – a simple C# console application for work scheduling.
- ❖ **Community center app** (group project) – item borrowing system & WPF styling.
- ❖ **MonteCarlo** (group project) – the backend and UI coding for roulette and yahtzee.

Marketing and Social Media Management

Voluntary work with **Whatt4** (whatt4.eth.limo) editing articles and assisting with social media management on Twitter/X for the following clients:

- ❖ **DXDao (2022-2023)** (dxdao.eth.link)
- ❖ **Metrom (2024)** (metrom.xyz)
- ❖ **Outposts (2024 - 2025)** (outposts.io)

Hard Skills

- Spoken Languages: English, Polish, Lithuanian.
- Programming & Markup Languages:
 - C# (ASP.NET MVC)
 - HTML, CSS & Javascript
 - SQL (MySQL & PL/SQL)
- Data cleaning, analysis and visualization using Excel & PowerBI.
- UI planning with Figma.
- Group work with a SCRUM system, using Git and Jira.
- Social media management, article writing and editing.

Soft Skills

- Cooperation and fast communication in a group.
- Understanding and implementing client specifications.
- Punctual and hard-working.
